

London Summer Mission

2021 Covid Info

The Housing

We are currently anticipating limiting living quarters to two participants per room. We are also creating a contingency plan to provide extra housing in case of the need to quarantine.

The Social Spaces

We will encourage students to gather outdoors for social interaction whenever possible

The Meeting Spaces

When meetings necessitate congregating indoors, we will follow local city guidelines with regards to social distancing, masks and limiting room capacity.

The Finances

SM application fees \$25 are waived to ease cost. Also, the current flights we are considering are refundable up until 30 days before departure.

The Evangelism

In a time when students are looking for hope more than ever, sharing the good news of Jesus is of utmost priority. However, we are planning to initiate spiritual conversations respectfully and safely, maintaining local guidelines with regard to masks and social distancing.

2021 Covid Info

The Organizational Support

We are currently anticipating limiting living quarters to two participants per room. We are also creating a contingency plan to provide extra housing in case of the need to quarantine.

The Time

We're building in contingencies knowing that we don't know everything right now, but, by the time we get to Summer Mission (SM) there will have been more months of progress related to testing availability and protocols, quarantine/isolation and mitigation strategies, prevention measures, etc. There is also the possibility that vaccines will be available by the time SMs start.

The Students

We think students want to go on SM. Many students will be longing for the fellowship, development and ministry that may have been lacking because of COVID's effect on our local movements.

In all of this we want to be both wise and sensitive to the realities of COVID and faithfully wise and bold in sharing Christ with others.
