

Very soon nearly every human will have a mobile device in their pocket.

That means they have access to the gospel all day, every day—usually in a familiar language. Digital strategies allow the gospel to permeate the hardest places to reach, including locations where it is not possible to physically send missionaries.

Together with our partners, Cru has the opportunity, the technology and a clear plan to help millions of people all over the world take their next step of faith with Jesus Christ with someone they trust.

We are a team of missionaries who provide spiritual and strategic leadership in digital missions.

GOD HAS CALLED US TO HELP FULFILL THE GREAT COMMISSION.

We believe God is fulfilling this 2,600-year-old prophecy in our times through digital media: *“Write the vision, make it plain on tablets, so that the one who reads it may run... The earth will be filled with the knowledge of the glory of the LORD as the waters cover the seas.”* — Habakkuk 2:2,14

WE GO WHERE PEOPLE ARE.

- **WE ENGAGE** people who are unaware or curious about God in their journey toward Jesus. We offer them personalized online experiences toward becoming a multiplying disciple
- **WE EMPOWER** like-minded followers of Jesus with a suite of trusted tools and strategies that help them leverage digital media for ministry
- **WE LEAD** and are a catalyst for the body of Christ by using digital tools to help plant ministries, churches, groups and networks where none currently exist
- **WE COLLABORATE** with partners and the body of Christ to inspire and equip 10 million multiplying disciples by 2020

NOTES

¹ A journey is a sequence of experiences designed to guide a user on a pathway towards spiritual multiplication, beginning with wherever they might currently be at on that journey. (See scale of belief and journey grid).

² Integrated digital content strategy means that we deliver the right content at the right time for the right person or audience in the right channel. This uses the Cru Growth Stack’s five capabilities of content management, social media management, email marketing, personalization, and analytics.

³ 194,700 represents 10x the number of our national staff and associates worldwide. We design to scale at least 10x.
